

ALL RUSSIA AGAIN IN THROES OF AN INCIPIENT REVOLUTION

A General Political Strike Was Inaugurated In St. Petersburg at Noon Today.

Leaders Openly Proclaim That Their Ultimate Object Is the Complete Overthrow of the Present Reigning Monarchy of the Romanoffs

AND ESTABLISHMENT OF A REPUBLIC

Social Revolutionists Declare, In Their Proclamation, That the Government Continues to Walk Over Their Corpses and Courtmartial the Bold Sailors and Soldiers of Cronstadt.

St. Petersburg, Nov. 15.—At the San-gal works, there was a fight between strikers and anti-strikers during which four men were killed and ten were wounded with bullets.

The lights will be shut off this evening and the city will again be in darkness. The cab drivers have joined the strike.

The suddenness of the movement has terrorized the inhabitants and has caught the government as usual unprepared.

The streets are already full of Cossacks, cavalry and infantry, but the authorities in the face of such gigantic revolutionary demonstrations seem to be hesitating over what course to pursue. Inasmuch as ten thousand arms were bought and distributed during the last few days under cover of providing for defense against the "Black Hundred," there is danger of bloodshed on a large scale should the troops fire, as the people are better prepared and armed for a conflict. Moreover, they assert confidently that they know positively that the soldiers of several of the guard regiments will refuse to fire upon the people.

St. Petersburg, Nov. 15.—The Proclamation of St. Petersburg, has been another general political strike beginning today at noon. This action was decided upon late last night, and the workmen's strike committee, which is now completely under the domination of the social revolutionists, whose leaders openly proclaim that their ultimate object is the complete overthrow of the monarchy and the establishment of a democratic republic. This also is the real aim of the "Black Hundred," the social democrats of Poland, but the proclamation is sent largely in the back ground and apparently supports the popular sympathy for Polish autonomy and the indignation against the application of the death sentence imposed on the Cronstadt mutineers. The proclamation says:

"The imperial government continues to walk over our corpses. It court-martials the bold sailors and soldiers of Cronstadt who rose in defense of their rights and national freedom. It suppresses weak and suppressed Poland with martial law.

The workmen's council calls on the revolutionary proletariat of St. Petersburg to renew the general political strike which has already demonstrated its dread power in order to show brotherly solidarity with the revolutionary soldiers and sailors as well as with the revolutionary proletariat of Poland. Let the workmen of St. Petersburg cease work at noon, November 15th—with the cry of 'Down with the court martial!' 'Down with the death penalty!' 'Down with martial law in Poland and in all Russia!'

The committee has appealed to the strike committee throughout Russia to join in the movement and has also appealed to the railroad men with the view of bringing about another general strike. One of the most potent arguments used at the meeting of workmen's delegates last night was that in this time the workmen will have their officers in behalf of the revolution. The committee has also appealed to the workmen to win over the army and navy to the cause of freedom. Some of the delegates who, having the question of national economy upon their minds, namely, how to increase their incomes with dimin-

ished labor, proposed that the political strike would interfere with the fight for an eight-hour day but they were easily waived aside by the majority who claimed that it would be time enough to deal with economic questions when they had finished with the reign of the monarchs.

The strike commenced promptly at the Baltic and Warsaw railroads and it is announced that the other lines will follow suit.

Although the workmen of many of the big establishments beyond the Moscow and Novorossiysk and in the Neva and Vassili districts, promised to join the strikers, those of the Porfirov and other factories declined to join in the strike. The various professional organizations which participated in the other general strike are also lukewarm, regarding the decision of the workmen's committee as hasty and ill-considered. Nevertheless in the present excited state of public opinion they may be swept off their feet, especially should some unexpected incident occur.

Should the general strike again spread over the country, the government position might be rendered desperate. It is important now to deal with many of the questions confronting it and it might be converted into making further concessions. The situation in London is becoming alarming. The fact of Finland and Poland has now picked up courage and has demanded autonomy. The attempt to restore order in the government of Russia, trans-Caucasia, with Russian troops has so inflamed the population that the national council of Russia, capital of the government of this place, has telegraphed to both Czar and Viceroy advising against further attempts at force.

The Finnish railroad men are holding a meeting to decide whether they too will join in the strike movement.

The factories in the industrial districts around the Neva and Moscow gates have shut down and the Nevsky Admiralty and Baltic yards, the machine works, and all the cotton and woolen mills on both sides of the Neva closed at noon and soon thousands of workmen were parading in the industrial districts carrying red flags and forcing those who were reluctant to strike to join them. The compositions were said to have decided to join the general strike and it is expected that all the newspapers will again have to suspend publication.

The order for a general strike was wonderfully successful almost throughout the city in obedience to the orders of the strike committee. The Northern Express bound for Paris remains standing at the station.

Rioting at Vladivostok. St. Petersburg, Nov. 15.—The latest reports from Vladivostok indicate that the rioting has not yet been suppressed. Both the sailors and the fortress artillerymen participated in the outbreak. The commandant lost his head, the situation got beyond his control and vigorous measures were not taken until a large part of the city was destroyed. The population is still seeking refuge on the vessels in the harbor.

According to one report from there, three hundred people, mostly sailors and artillerymen were killed.

Editors Under Arrest. Warsaw, Nov. 15.—Count Tzolkiewicz, editor of the Libinski, and M.

Emperor Again Weakening. St. Petersburg, Nov. 15.—A cable to the Associated Press is informed from a high source that a decree will be issued possibly tonight whereby a large portion of the imperial domain which covers almost a third of European Russia and which at present is the property of the Emperor and grand dukes will be given to the peasants.

Wild Rumors Are Afloat. St. Petersburg, Nov. 15.—Sensational reports were current late this afternoon that the "Black Hundred" had been riding on the Viborg side of the river and that great disorders were in progress in the Alexanderovskiy (the Jew market) quarter on the Sadovskiy, but investigation failed to confirm the rumors.

FASHIONABLE GOWNS Were Forgotten at the Annual Horse Show in New York Today

WHEN THE CONTESTS Between the Rival Owners of Animals Became Quite Heated.

New York, Nov. 15.—The horse show today began its third day's exhibition with the contest for leading honors among the exhibitors already narrowed down to a few prominent members of society and winners of former years.

Today in place of the interest in fashionable gowns and prominent persons, which predominated during the opening days of the show, there was excitement over the appearance of each entry and shouts of applause filled the immense amphitheater whenever one of the orders sent a prancing horse into the arena.

Alfred G. Vanderbilt, Reginald Vanderbilt, Mrs. John Gerken, E. D. Jordan, of Boston, and Wm. H. Moore, of Chicago, led in the race today. The contest between the two Vanderbilts was in the nature of a friendly duel, each one attempting to outdo the other regardless of their ranking alongside of other exhibitors.

Mrs. John Gerken usually driving her own entries, was not only a favorite with the audience but the courtesies which the men drivers offered her became one of the most pleasing features of the show. These courtesies frequently called for a splendid display of horsemanship.

THEY PINE FOR A CHANGE. New York, Nov. 15.—A cable dispatch to the Herald says:

Residents of the Isle of Pines have issued a declaration of their independence from Cuba and organized a new government as U. S. Territory. A delegation to congress will be sent to Washington in order to have questions affecting the future of the island discussed before the house of representatives.

DEMOCRATS WILL HAVE THE SENATE.

COLUMBUS, O., Nov. 15.—A telegram to the Dispatch from Hamilton, Ohio, says: "Stake \$50,000. J. E. Harding will not contest election of J. E. Huffman as the democrat will vote for the second round contest. This will leave the state senate in control of the democratic vote of 19 to 18. Mr. Harding says his decision was taken on a promise of a cabinet secretary of Ohio."

IN THOROUGHBREDS

And in Mining Ventures the Dead Cashier Was Interested.

IN GREAT CONFUSION

The Papers of the Erring Banker Have Been Found By Experts.

Pittsburg, Pa., Nov. 15.—The private papers of T. Lee Clark, the dead cashier of the Commercial National bank of Allegheny, which are now under examination, are said to show that Clark's outside financial transactions began seven years ago and that he was interested in many corporations, including several mining ventures.

Among his holdings at the time of his death, it is said, was a half interest in a string of high bred Kentucky horses.

So confusing are the papers that those in charge have to date when they can complete their work, or what the value of the estate will be. As soon as the value of the estate can be learned a report will be submitted to the bank, after which action against the estate may be presented. The audit will not take place for a year.

The lawyers for the estate, it was said, do not expect to save any of the Clark assets, except the insurance money which has been paid to Mrs. Clark, which it may be will be saved through legal proceedings or through the regular channels of the Orphans' court has not been determined.

WAS NOT RACE HATRED.

Washington, D. C., Nov. 15.—No boycott and no race feeling, but a mere personal quarrel was the cause of the death of five American Presbyterian missionaries recently killed at Lien Chao, in China, according to the report made today in Secretary Root by Sir Chen Tung Liang Cheng, the Chinese minister here.

A NEGRO PRISONER

Hurried From Rushsylvania to Bellefontaine Last Night

TO ESCAPE LYNCHERS

Who Were Organizing a Committee to Hold a Lynching Bee.

Springfield, O., Nov. 15.—The town of Rushsylvania near here, is in the midst of great excitement this morning and last night came near repeating its performance of twelve years ago when a negro was lynched. Henry Jenkins, colored, was arrested last night charged with assault on his seven year old step-daughter.

The populace heard of it, and at once began organizing a mob to lynch the negro last night. He was given a hurried trial before Mayor Boyer, and spirited away to Bellefontaine and placed in jail to await the action of the grand jury. The citizens are even talking of storming the Bellefontaine jail and considerable fear is being expressed that the man will be lynched.

GIGANTIC SUM OFFERED HYDE FOR HIS INSURANCE HOLDINGS

"COL. BOB" LYNN DEAD.

Cincinnati, O., Nov. 15.—Robert G. Lynn, "Colonel Bob," one of the most widely known race track bookmakers in the country, died last night at the Burnet House of pneumonia. A COAL FAMINE IN WINDY CITY.

Chicago, Ill., Nov. 15.—Coal dealers say prices are advancing, and that is due to the fact that there is a car famine, and coal cannot be shipped into Chicago from the coal fields. "The price of all soft coal has advanced from 25 to 50 cents a ton," said the manager of one coal company. The supply of coal now standing in cars on the various railroads in Chicago, say the fuel dealers, would not last an hour in the face of the sudden orders for hurried deliveries that follow the first fall of snow.

JUST A LITTLE PIN MONEY.

New York, Nov. 15.—The Standard Oil Co. has declared a quarterly dividend of \$10 a share. The previous dividend was \$6 a share and the dividend at this time last year was \$7 a share. Today's declaration brings the total dividend for the year to \$40 a share. Last year it was \$36.

AS LIKE MUSHROOMS

Oil Derricks are Springing Up and Land Values Are Soaring.

SUMMIT COUNTY BOOM

Starting With Little Merit and no Big Discoveries of Crude.

Akron, O., Nov. 15.—The greatest oil boom in its history is now on in Summit county. Just now there is much more excitement than oil, but rural land values have soared sky-high, and farmers who have been talked to by optimistic prospectors see themselves becoming rich. Wells sunk by the Interstate Oil Co., southeast of the city have developed some oil, and the leases of the company cover most of two townships.

Today, Judge Geo. M. Anderson, for the Akron Oil Co., of this city, made application to the state canal commission for leases on Turkeyfoot, Rex, Kountz, Long, Deep and Vermont lakes, the east and west reservoirs, the connecting waterways and all the state lands connected with them in this county. The company wants to prospect for oil and gas. Farmers whose land was in the market a few months ago at \$50 an acre are now holding it at \$500. Oil derricks are springing up like mushrooms all over the county, and local oil men say that a period of excitement over oil prospects similar to that in the western part of the state some years ago is coming.

PILLARS CLUB BURNED OUT.

Cincinnati, O., Nov. 15.—The Pillars Club, one of the most exclusive social organizations in this city lost its club house on Madison Road by fire yesterday evening, entailing a loss of \$50,000 to the building and contents. Many distinguished people have been entertained in the building, among them Miss Alice Roosevelt, who was a guest there when she was in Cincinnati last June.

Frick, Harriman, George Gould and Others Wanted His Stock in the Equitable.

Declares He Refused to Accept Either of Five Offers Made Because He Did Not Think One Man Should Be Permitted to Control the Society.

FRICK OFFERED HIM FIVE MILLIONS

Former Governor O'Dell, of New York, Asks to Be Called Before the Investigating Committee in Order That He May Have Opportunity to Testify Under Oath in Reply to Hyde's Testimony.

New York, Nov. 15.—Jas. H. Hyde was the first witness before the Armstrong committee on insurance investigation. He asked to correct his testimony of yesterday relative to offers for his stock. He said he did receive four offers besides that of Mr. Frick, two of these came from Mr. Harriman and Mr. Frick. He was offered \$5,000,000 for his entire holdings and \$2,500,000 for half of them. George Gould also made such an offer, but they were all declined because witness did not think one man should control the society. Gage E. Tarbell made an offer and said he had a syndicate ready to buy the stock. George W. Young also offered to buy Mr. Hyde's stock. These were all verbal offers.

The largest price offered was \$7,000,000 by George W. Young, former president of the United States Mortgage & Trust Co. Mr. Gould's offer was made first. "That was in the beginning of the row," said Mr. Hyde. "It must have been in the beginning of February. The second offer was made by Mr. Frick, a few months before the first board meeting in February, of five million dollars for the entire holdings or of two and one half millions for one half of the holdings. I declined both of these offers as I did not think it was for the best interest of the society that I should then part with my stock, or if I did part with it I did not think it for the best interest of the society that one individual should control it. I had no idea of parting with my stock at that time. I offered to trustee it to the society for five years. That was at the beginning of this trouble. I first offered to trustee it for five years and then afterwards offered it to the society to buy it and then I afterwards discovered the society didn't have the right to buy it."

"What was the third offer?" "The third offer was an offer of one million dollars from Mr. Jordan. He informed me that he had a syndicate of gentlemen ready to purchase it. This was some time in February."

"What was the next offer?" "Then I also received an offer from George W. Young, of \$7,000,000, I should think that was at the end of February, or the beginning of March. I am not sure of the exact date. Mr. Hyde testified that the only offer for his stock made after the Frick offer was made by Mr. Jordan.

Reading from the acts of 1868, 1869 and 1870 incorporating the fire proof warehouse company and amending the act to change the name to the Mercantile Loan & Warehouse Co., and subsequently in 1875 changing the name to the Mercantile Trust Co., Mr. Hughes brought out the source of the Mercantile Trust Co.'s charter. He then read a bill introduced by Senator Amos in the senate in March, 1904, to repeal all these acts and amendments. The effect of this bill if passed would have been to leave the Mercantile Trust Co. without a charter. Mr. Hyde here made a statement denying that he or the Equitable Life Assurance Society had anything to do with or any interest in the U. S. Shipbuilding Co., or its securities.

On March 16, 1901, the Equitable Life Assurance Society bought 2,000 shares of the Lawyers Title Insurance Co., at \$174 per share, and two days later sold 11,000 shares at the same price to George H. Squires. Mr. Hyde said he did not know of this deal though he was a member of the executive committee and did not know

that the stock was worth a great deal more a short time after. Mr. Hyde sold to the society on October 13, 1904, 288 shares of this stock at \$15 and that was the only transaction he had in this stock. The price was the market price at that time. Stocks were bought on Mr. Hyde's account from Williamson and Squire, but Mr. Hyde denied that he had bought from them and said that no one had his orders to do so. He knew brokers were picking this stock but did not know it was being bought for any of his own committee. Some of the purchases, he said, were made for Thos. D. Jordan, but Mr. Hyde knew nothing about it and never had any conversation with Mr. Jordan upon it.

After the change of name from the American Deposit and Loan Co. to the Equitable Trust Co., officers of the Equitable Life Assurance Society were buying the stock of the Lawyers Title Insurance Co., in the name of the American Deposit and Loan Co., and taking the profits on the stock. This was the first Mr. Hyde had heard of this transaction.

Mr. Hyde said he could not remember that he had ever received any money or gained any profit from Geo. H. Squires, and it would be difficult to refresh his memory because his books have been in a most confused state since he left the Equitable Life. He did not know that it was possible for Squire to sell stock to the society without the knowledge of the executive committee but thought it could be done by special arrangement.

NXIOUS TO REPLY.

LIMA AFFECTED

As do Other Cities Having
But Two Members.

City Solicitor Tatum, of Springfield,
handed down an opinion to Mayor
Bowling, which may affect every city
in Ohio that has only two members on
the board of public safety. Two years
ago, when the municipal code went
into effect, one member was appoint-
ed for two years and one for four
years. The solicitor holds that the
member who was named for two
years holds over to the second Mon-
day in January and that the mayor
elected at the recent election will ap-
point his successor for a term of four
years.

SHIP CANAL

May Yet Be Made Out of the
Miami and Erie Canal.

It is intimated in financial and polit-
ical circles in the big cities of the
state that since the recent election an
entirely new phase has been given the
Miami & Erie Canal situation. Instead
of an agitation to abandon that time-
honored and sluggish waterway, it is
said a movement will be started and
brought before the legislature looking
to the authorizing of a great bond is-
sue for its conversion into a deep-
water ship canal to connect Lake
Erie and the Ohio river. The friends
of the canal are known to have the
matter under consideration, and the
point they are now investigating is
the power which the legislature has in
the premises. There is a question as
to whether or not the legislature could
authorize such a bond issue. The
friends of the canal say that it would
not be a financial burden upon the
state after the improvement is once
completed. Plans discussed some
years ago to widen and deepen the
canal estimated the probable cost of
the work to be \$50,000,000.

NEW FORM USED

For Post Office Orders to
Prevent "Raising."

All postmasters have recently re-
ceived a copy of a new money order
which is being furnished by the post-
office department, and is intended to
prevent alteration.

Recently all postmasters received a
notice to be on the lookout for money
orders which have been "raised" by
some crook who was as yet been un-
detected. Cliphers or numbers had
been added to the amounts on the face
of the orders so that they represented
ten times the amount for which they
were drawn. The new order has been
designed especially to prevent this.

A column of numbers running from
one to five and then from five to one
hundred is arranged along the left side
of the new order. The line of num-
bers is arranged so that the money
order clerk may tear off the line up
to the amount of the order in round
numbers.

A glance at the face of the order
and corresponding number when it
is presented will at once show whether
it has been tampered with. It is
expected that the new form will
prove a faultless check to raising
orders.

him had not been proven. The council
finds however, that Rev. Wannen-
maker has been indiscreet and advises
that he retire from the ministry for
the present.

Following divorce proceedings, filed
by Mrs. Wannamaker, sensational
charges were made against the min-
ister, all tending to show him guilty
of immoral conduct. The case has at-
tracted wide-spread attention.

ROUGH WEATHER
ON LAKE ERIE.

Cleveland, O., Nov. 15.—Driven by
a thirty-six mile an hour gale, a heavy
snow storm is raging over Northern
Ohio today. The snow is drifting
badly and the storm continues many
hours traffic on the railroads will be
seriously delayed. Incoming vessels
report extremely heavy weather on
Lake Erie.

A Creeping Death.
Blood poison creeps on towards the
heart, causing death. J. E. Stearns,
of Belle Plaine, Minn., writes that a
friend dreadfully injured his hand,
which swelled up like blood poisoning.
Bucklen's Arnica Salve drew out the
poison, healed the wound, and saved
his life. Best in the world for burns
and sores. 25c at H. F. Vorkkamp's

WITH RESOLUTIONS

The Labor Convention Was
Very Busy for an Hour
This Morning.

THE BRIDGE WORKERS

Are Supported In a Strike
Against the American
Bridge Company.

Pittsburg, Nov. 15.—The American
Federation of Labor was in session
only an hour this morning and that
time was taken up by presentation and
addition of many resolutions. First
Vice President Jas. Duncan presided.
Among the resolutions presented and
adopted were:

Endorsement of the strike of bridge
workers and structural workers
against the American Bridge Co., and
the recommendation to render all the
striking iron workers all the assis-
tance possible.

Urging that stenographers, type-
writers and other such clerical em-
ployes organize themselves into a
union to become affiliated with the
federation, condemning the importa-
tion of Japanese and Korean labor in-
to the United States; asking that con-
vict labor be abolished and requesting
congress to enact further laws rela-
tive to the safeguarding of life and
limb of sailors on the coast.

CAR SHORTAGE

Bring District Freight Men
to This City.

"Never before have I seen such a
car shortage at this time of the year,"
was the remark Edward Linthicum, of
the division freight offices of the
Pennsylvania, here from Chicago to-
day. With him is H. M. Quicksel, of
the Union Line, with headquarters in
Ft. Wayne. Both men are en tour ex-
plaining to shippers why it is they can
not provide the cars now under order,
and beseeching quick unloading and
return of cars. The railways of the
country are doing a tremendous busi-
ness right now, and this is general on
the Lima lines from the C. & L. M.
to the trunk roads.

It is difficult to cure a cough, or

THINK OF IT!

WHAT a great industry goat raising must be! To make the uppers for that pair of fine kid boots you are wearing required the entire skin of one little animal. Out of the 10,000 pairs of shoes which the "Queen Quality" factory makes every day, the greater part of them are of kid or patent kid—each requiring on the average one skin for every pair.

Think then of the thousands of animals necessary to supply this great factory even for a single day! What a forcible illustration of the tremendous popularity of the "Queen Quality" Shoe! And doesn't the very magnitude of its sales (by far the largest in the world) prove that it has a combination of merits unequalled?

We have the sole right of sale.

TO OPPOSE WALDORF

For Re-appointment as Internal Revenue Collector at Toledo.

ASKED ENDORSEMENT

Of the Committee But This Is Refused, Quail May Still Have Hopes.

The Toledo News-Bee seems in the dark regarding national politics though it has certainly been right in line on state affairs. For the News-Bee's enlightenment it must be stated that the Republican-Gazette, Quail's organ, one Sunday last February announced his appointment as internal revenue collector by the gift of Senator Foraker. The Gazette is closer to Foraker than to the party and has never corrected their statement so Geo. H. Quail is ready to step into Colonel Waldorf's job at any time. Says the News-Bee regarding this job:

"Local republican politicians are taking interested note of the efforts of Colonel Geo. P. Waldorf to secure endorsement for re-appointment as revenue collector from a majority of the members of the county central committee."

"The campaign has been of the gumshoe order, but the secret has leaked, and adds another element to the agitation over the reorganization of the party."

"There are a number of local men whose friends consider them quite capable of looking after the affairs of the internal revenue office and they are likely to do their utmost to checkmate Col. Waldorf."

"The collector will be somewhat hampered by the report of the special investigating agent sent here by President Roosevelt a year ago to investigate reports that the internal revenue collector had been perniciously active in political affairs."

"The complete repudiation by the voters of the political machine of which Colonel Waldorf has long been a member is also classed as a formidable barrier in his way to a renewal of office, and many of his former supporters are now rising up in rebellion, urging the central committee to refuse their endorsement."

THE IDLER.

Postmaster Campbell has received notice that a new form of money order is soon to be issued by the postal department. The name of the remitter, with his street address must be placed on the face of the new form and the amount of money sent is represented by figures torn off on one end of the slip. Under the old form many of the orders were "raised" by sharpers in various parts of the country, but it will be almost impossible to do this with the new form.

Grab it rhymes with rabbit, but shoot it will not; when Frank Brown returns he will tell you what he got. He is after game out near West Munster and the Devil's Back Bone. Maybe he will bring home the bone.

Miss Katharine Prophet, the popular teacher of the Grand avenue building, is fully recovered from her serious illness from diphtheria, but it will require a period of three weeks before she can secure her certificate from the health officer permitting her to return to her school duties.

Speaking of diphtheria, there is a slight decrease in the number of new cases, though they still average about twenty the new ones keeping equal pace with the dismissals.

Big Delegation of Priests
and Citizens From Wayne.

A delegation of between seventy-
five and eighty priests of Northern In-
diana and residents of Ft. Wayne
came here this afternoon on the pri-
vate car Lawton, over the Ft. Wayne
line, as a reception committee to
meet Bishop Alderdice who has been
absent abroad for some time.

Croup is quickly relieved and whoop-
ing cough will not run its course if
you use the original Bee's Laxative
Honey and Tar. This Cough Syrup
is different from all others because it
acts on the bowels. You can not cure
Croup and Whooping Cough until you
rid the system of all congestion, by
working off the cold through a copious
action of the bowels. Bee's Laxative
Honey and Tar does this, and cures
all coughs, croup, whooping cough,
etc. No opiates. For sale by H. F.

LIMA AFFECTED

As do Other Cities Having
But Two Members.

City Solicitor Tatum, of Springfield,
handed down an opinion to Mayor
Bowling, which may affect every city
in Ohio that has only two members on
the board of public safety. Two years
ago, when the municipal code was
into effect, one member was appointed
for two years and one for four
years. The solicitor holds that the
member who was named for two
years holds over to the second Mon-
day in January and that the mayor
elected at the recent election will ap-
point his successor for a term of four
years.

WILL CONTEST

Dr. Good of Sidney Will Go
Over Senatorial Vote.

Dr. S. G. Good, of Sidney, defeated
for senator in this, the twelfth district
by J. E. Russell, also of Sidney, by 50
votes, announces that he will contest
the election. He has retained George
S. Long, of Troy, John C. Clark, of
Greenville, and J. D. Barnes, of Sid-
ney, to look after his interests. Dr.
Good claims he has good grounds for
a contest and believes he has been
elected over his republican rival.

Scrofula

It is commonly inherited.
Few are entirely free from it.
Pale, weak, puny children are
afflicted with it in nine cases out of
ten, and many adults suffer from it.
Common indications are bunches in
the neck, abscesses, cutaneous eruptions,
inflamed eyelids, sore ears,
rickets, catarrh, wasting, and general
debility.

of Hamilton H. Stow, of Toledo, father-
in-law of Mr. Harry Crandall, of the

this city:

"Hamilton H. Stow, well known oil
operator and member of the firm of
Van Vleet & Stow of this city, died
at his home, 1418 Jackson avenue,

"Mr. Stow had been in ill health

Hamilton H. Stow was one of To-

1889 he made his headquarters in
this city and was well known as a
shrewd and careful man of business.
He was born in Olean, N. Y., June
25, 1837. In 1861 he interested
himself with his father in the lum-
ber business in Cincinnati. In 1879
the oil business fascinated him and
he went to Bradford, Pa., where he
became interested in oil, and for ten
years successfully operated in that
vicinity.

"In 1889 Mr. Stow came to the fields
near Toledo where he has since re-
mained. He was one of the best
known men in the oil regions of

SHIP CANAL

May Yet Be Made Out of the
Miami and Erie Canal.

It is intimated in financial and pol-
itical circles in the big cities of the
state that since the recent election an
entirely new phase has been given the
Miami & Erie Canal situation. Instead
of an agitation to abandon that time-
honored and sluggish waterway, it is
said a movement will be started and
brought before the legislature looking
to the authorizing of a great bond is-
sue for its conversion into a deep-
water ship canal to connect Lake
Erie and the Ohio river. The friends
of the canal are known to have the
matter under consideration, and the
point they are now investigating is
the power which the legislature has in
the premises. There is a question as
to whether or not the legislature could
authorize such a bond issue. The
friends of the canal say that it would
not be a financial burden upon the
state after the improvement is once
completed. Plans discussed some
years ago to widen and deepen the
canal estimated the probable cost of
the work to be \$50,000,000.

NEW FORM USED

For Post Office Orders to
Prevent "Raising."

All postmasters have recently re-
ceived a copy of a new money order
which is being furnished by the post-
office department, and is intended to
prevent alteration.

Recently all postmasters received a
notice to be on the lookout for money
orders which have been "raised" by
some crook who has as yet been un-
detected. Ciphers or numbers had
been added to the amounts on the face
of the orders so that they represented
ten times the amount for which they
were drawn. The new order has been
designed especially to prevent this.

A column of numbers running from
one to five and then from five to one
hundred is arranged along the left side
of the new order. The line of num-
bers is arranged so that the money
order clerk may tear off the line up
to the amount of the order in round
numbers.

A glance at the face of the order
and corresponding number when it
is presented will at once show wheth-
er it has been tampered with. It is
expected that the new form will
prove a faultless check to raising
orders.

Everything you eat will taste good

DID NOT FIND THE
MINISTER GUILTY.

Elyria, O., Nov. 15.—The council of
the Congregational church before
whom Rev. H. S. Wannamaker, pastor
of the second church here, has been
on trial, rendered a decision today
that the charges of immorality against
him had not been proven. The coun-
cil finds however, that Rev. Wannamaker
has been indiscreet and advises
that he retire from the ministry for
the present.

Following divorce proceedings, filed
by Mrs. Wannamaker, sensational
charges were made against the min-
ister, all tending to show him guilty
of immoral conduct. The case has at-
tracted widespread attention.

ROUGH WEATHER
ON LAKE ERIE.

Cleveland, O., Nov. 15.—Driven by
a thirty-six mile an hour gale, a heavy
snow storm is raging over Northern
Ohio today. The snow is drifting
badly and the storm continues many
hours traffic on the railroads will be
seriously delayed. Incoming vessels
report extremely heavy weather on
Lake Erie.

A Creeping Death.
Blood poison creeps up towards the
heart, causing death. J. E. Stearns,
of Belle Plaine, Minn., writes that a
friend dreadfully injured his hand,
which swelled up like blood poisoning.
Bucklen's Arnica Salve drew out the
poison, healed the wound, and saved
his life. Best in the world for burns
and sores. 25c at H. F. Vorkkamp's

Very Busy for an Hour
This Morning.

THE BRIDGE WORKERS

Are Supported In a Strike
Against the American
Bridge Company.

Pittsburg, Nov. 15.—The American
Federation of Labor was in session
only an hour this morning and that
time was taken up by presentation and
addition of many resolutions. First
Vice President Jas. Duncan presided.
Among the resolutions presented and
adopted were:

workers and structural workers
against the American Bridge Co., and
the recommendation to render all the
striking iron workers all the assis-
tance possible.

Urging that stenographers, type-
writers and other such clerical em-
ployes organize themselves into a
union to become affiliated with the
federation, condemning the importa-
tion of Japanese and Korean labor in-
to the United States; asking that con-
tract labor be abolished and requesting
congress to enact further laws relative
to the safeguarding of life and
limb of sailors on the coast.

CAR SHORTAGE

Bring District Freight Men
to This City.

"Never before have I seen such a
car shortage at this time of the year,"
was the remark Edward Linthicum, of
the division freight offices of the
Pennsylvania, here from Chicago to-
day. With him is H. M. Quicksel, of
the Union Line, with headquarters in
Ft. Wayne. Both men are en tour ex-
plaining to shippers why it is they can
not provide the cars now under order,
and beseeching quick unloading and
return of cars. The railways of the
country are doing a tremendous busi-
ness right now, and this is general on
the Lima lines from the C. & L. M.

THINK OF IT!

WHAT a great industry goat raising must be! To make the uppers for that pair of fine kid boots you are wearing required the entire skin of one little animal. Out of the 10,000 pairs of shoes which the "Queen Quality" factory makes every day, the greater part of them are of kid or patent kid—each requiring on the average one skin for every pair.

Think then of the thousands of animals necessary to supply this great factory even for a single day! What a forcible illustration of the tremendous popularity of the "Queen Quality" Shoe! And doesn't the very magnitude of its sales (by far the largest in the world) prove that it has a combination of merits unequalled?

We have the sole right of sale.

TO OPPOSE WALDORF

For Re-appointment as Internal Revenue Collector at Toledo.

ASKED ENDORSEMENT

Of the Committee But This Is Refused, Quail May Still Have Hopes.

The Toledo News-Bee seems in the dark regarding national politics though it has certainly been right in line on state affairs. For the News-Bee's enlightenment it must be stated that the Republican-Gazette, Quail's organ, one Sunday last February announced his appointment as internal revenue collector by the gift of Senator Foraker. The Gazette is closer to Foraker than to the party and has never corrected their statement so Geo. H. Quail is ready to step into Colonel Waldorf's job at any time. Says the News-Bee regarding this job:

"Local republican politicians are taking interested note of the efforts of Colonel Geo. P. Waldorf to secure endorsement for re-appointment as revenue collector from a majority of the members of the county central committee."

"The campaign has been of the sunshiny order, but the secret has leaked, and adds another element to the agitation over the reorganization of the party."

"There are a number of local men whose friends consider them quite capable of looking after the affairs of the internal revenue office and they are likely to do their utmost to checkmate Col. Waldorf."

"The collector will be somewhat hampered by the report of the special investigating agent sent here by President Roosevelt a year ago to investigate reports that the internal revenue collector had been perniciously active in political affairs."

"The complete repudiation by the voters of the political machine of which Colonel Waldorf has long been a member is also classed as a formidable barrier in his way to a renewal of office, and many of his former supporters are now rising up in rebellion, urging the central committee to refuse their endorsement."

THE IDLER.

Postmaster Campbell has received notice that a new form of money order is soon to be issued by the postal department. The name of the remitter, with his street address must be placed on the face of the new form and the amount of money sent is represented by figures torn off on one end of the slip. Under the old form many of the orders were "falsed" by sharpers in various parts of the country, but it will be almost impossible to do this with the new form.

Grab it rhymes with rabbit, but shoot it will not; when Frank Brown returns he will tell you what he got. He is after game out near West Minister and the Devil's Back Bone. Maybe he will bring home the bone.

Miss Katharine Prophet, the popular teacher of the Grand avenue building, is fully recovered from her serious illness from diphtheria, but it will require a period of three weeks before she can secure her certificate from the health officer permitting her to return to her school duties.

Speaking of diphtheria, there is a slight decrease in the number of new cases, though they still average about twenty the new ones keeping equal pace with the dismissals.

Greeted the Talented Speaker Who Discussed the Merits of

CHRISTIAN SCIENCE

In a Lecture Delivered at Faurot's Opera House Last Night.

The lecture on Christian Science, delivered last night at Faurot's opera house by Mr. Edward A. Kimball, of Chicago, was listened to by an appreciative audience. Mr. Kimball said in part:

"The people of earth, unconfronted to what seems to be an intolerable fate, have turned in every conceivable direction in their effort for deliverance from evil, and they have failed, thus far, to find the way. There are still the same tears, broken hearts, beds of pain—the same havoc of outrageous fortune. Men continue to live, sick and die, according to a philosophy of doom which declares there is no salvation this side of the grave, no way out of the hell on earth but to die out."

"To this same stricken people, and in this very age, comes 'Christian Science' to declare that they can get out naturally, lawfully, scientifically; it comes as a message of hope and promise to a race which is in supreme need."

"It is self-evident that certain things have existence. It is generally known that they have cause, origin and basis, by reason of which they exist. Some people declare the cause to be a blind force; others that it is some sort of intelligence, and theologians affirm that it is a conscious intelligence or entity which may designate God."

"A consensus of enlightened belief concerning God is that he is one, supreme, infinite, self-existent, all-inclusive, spiritual, individual, conscious being—the sole creator of all that has actual existence. Also, that God is Good, Life, Truth, Love, omnipresent, omniscient and omnipotent; that he is the only law-maker and holds in his grasp the destiny of all men."

"Christian Scientists subscribe to all these postulates without reserve, and their way of salvation to their satisfaction."

Must Have Lustrous and Glossy Hair. No Matter What Color.

The direct cause of a woman's hair becoming thin and falling out is the lack of proper nourishment. The hair is the life of the body, and it is the life of the body that is the life of the hair. The hair is the life of the body, and it is the life of the body that is the life of the hair.

Tribute to Women.

"I feel that I need not stand long before an intelligent audience to debate the question as to whether or not the grand woman constitutes a masterpiece of God to them that sit and mourn and suffer. I know it is expected that a chivalrous man will speak in gracious terms of gracious womanhood, but I rejoice to know that the women I mean need not, nor do they thrive on untruthful compliments. Because of the sublimity of inspiration, fidelity, courage or character they stand on exalted heights which they have achieved for themselves."

"It has been my good fortune to know a splendid womanhood of whom I am greatly enamored, but I never knew one who was so meek, loving and humble as is the leader of our cause. I never knew one who seemed to intent on knowing the will of God or so glad and satisfied to do that will. I never knew one who was so honest, so charitable, just or kind. Her many years of consecrated experience have ripened into Godly reverence for and devotion to the daily life that is in imitation of Christ. Her chief ambition seems to be to battle for humanity against sin and disease, and to continue without reproach before God and man."

"Some day the world will know all this and render tardy justice, and meanwhile the tender, loving woman knoweth that a million people, many of them once dying, who have been rescued from unspeakable depths, and who know that for a generation she has stood as the lone rock stands far out against the angry sea, are thankful that in spite of every contention against her she has been faithful to her trust."

Sells More of Chamberlain's Cough Remedy than of All Others Put Together.
Mr. Thomas George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children, and always with the best results." For sale by all druggists.

Anxious Moments.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the group. There is no other medicine so effective in this terrible malady as Epley's Honey and Turp. It is a household remedy for throat and lung troubles, and as it contains no opiates or other poisons it can be safely given. Sold by H. F. Vorkamp and Wm. Melchillo.

TWICE-TOLD TESTIMONY.

Lima People Are Doing All They Can For Fellow Sufferers.
Lima testimony has been published to prove the merit of Doan's Kidney Pills to others in Lima who suffer from bad backs and kidney ills. Last year a sufferer wrote that the cures made by Doan's Kidney Pills are thorough and lasting, we produce confirmed proof—statements from Lima people saying that the cures they told of years ago were permanent. Here is a Lima case:

Ernest G. Connor, of Light & Connor, leaders in millinery and ladies' furnishings, at 134 north Main street, Lima, Ohio, and living at 218 Washington street, says: "Some four years ago I made a statement recommending Doan's Kidney Pills. I would not have done this if I had not known from personal experience that this remedy can be thoroughly relied upon in case of kidney and backache trouble. Continued freedom has so strengthened my estimation of Doan's Kidney Pills that I am well pleased to make another statement at this time, showing that they not only relieve but permanently cure."

For sale by all dealers. Price 50c. Foster-McBarn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Dear Sir:—Your letter containing invitation to Buckeyes to hold their mid-winter in your city read several

RACE SUICIDE

Made Necessary by the Heavy Taxation

Is the Sensational Declaration Made By a New York Woman.

THE BETTER CLASSES

Must Pay For the Children Brought Into the World By the Poor

And the Expense Is so Great They Must Limit Their Own Families.

New York, Nov. 15.—"The better class of people in New York cannot afford large families. They have too much to pay in taxes to support the large families of the thoughtless poor." This is the bomb which Mrs. S. M. Cory exploded yesterday at the Society for Political Study in a resume of the evils which the present New York's tax system, which created the greatest sensation in the society's history. "New York property owners," said Mrs. Cory, "pay increasing taxes every year, due mainly to the immigration. Who, may I ask, would want to pay taxes to educate children that should never have been brought into the world? Why should the thrifty pay for the shiftless?" "I am not so un-Christian as to say

that the child race should not be increased. But just to pay the taxes of the poor, the expense of education etc. on children of the poor will increase the number of the poor. No wonder our houses of refuge are overflowing with the 4.7."

A SECOND DISASTER

Falls to the Lot of the John G. Myers Company of Albany.

HEAVY LOSS BY FIRE

Sustained in Rooms Occupied After Collapse of Former Quarters.

Albany, N. Y., Nov. 15.—Fire broke out at an early hour today and totally destroyed the stock in one of the two temporary stores opened by the John G. Myers Co., after the collapse of their building last August, when thirteen people were killed and upwards of thirty injured. The store burned this morning was on the east side of north Pearl street, between South and Columbia streets, opposite the Kenmore Hotel.

The Myers people say their loss will probably exceed \$250,000 and the building, owned by the estate of A. H. Van Gaasbeek, is practically a total loss, upward of \$30,000. The stock of the Myers establishment is believed to have been fully insured. The fire threatened the entire block but the firemen succeeded in keeping it practically confined to the building in which it started. The fire began in the sub-cellar from some cause not ascertained.

YOU KILLED MY BOY

Were the Gruesome Words Hurlled at an Unfortunate Engineer.

SAD SCENE AT ELWOOD

In Which a Lake Erie & Western Engineer Participated.

Lake Erie and Western railway engineer, E. L. Grandstaff, a resident of Lima, was placed in a most uncomfortable and sad position at Elwood the other day when Mrs. Charles Loser went to the Lake Erie and Western railway station to talk with the engineer of the engine that killed her boy, Russell, last Wednesday.

The engineer explained the accident to her. He told her that he was profoundly sorry, and that he sympathized with her, but the mother, in mourning, could not be comforted. She began to cry, when the conductor shouted "All aboard," and the fireman began to ring the warning bell.

As the big engine started and grunted for breath to make another leap through space the mother protested to the engineer, with his hand on the throttle.

"You killed my boy, and you might as well kill me," whereat she ran ahead on the station platform and tried to throw herself under the wheels.

Bystanders rescued her, and the train proceeded.

SPLENDID PROGRAM

Rendered By the Mendelssohn Glee Club Last Evening.

STANDING ROOM ONLY

Was One Indication of the Very Pleasing Success Attained.

The Mendelssohn Glee Club which gave a concert at the First Baptist church last night, under the auspices of the Mendelssohn Glee Club, covered itself with glory. It sang to a house crowded to the utmost, with a number unable to secure seats.

The program presented embraced numbers to be completed on the Elsteddfeld at Venedocia today, and was pleasing in the extreme. The mixed choruses and the male choruses were especially pleasing, showing care

ful training and fine shading. The mixed quartette and ladies' quartette were gems of beauty and particularly notable was the duet by Mr. Medley and Mr. Jones, "The Banner of the Free."

The soloists of the evening, Mrs. C. S. Baxter, Miss Helen Badeau, Miss Effie Longworth, of Delphos, O.; Miss Millie Sonntag, Mr. Henry Deiss and Prof. Ryder, each secured a decided success and were heartily cheered.

The program was varied in character and pleasing in execution, and of such length as to leave the audience wanting more. Proceeds of the concert are applied to the new church movement of our Baptist friends, who have recently purchased the lot at the corner of west High and West streets.
